# BUY A STAR AND HELP US LIGHT UP THE NIGHT SKY

Every night around midnight **nva**, Scotland's acclaimed environmental arts organisation (*creators of The Path in Glen Lyon*) will be taking an audience on an extraordinary journey through the wild northern landforms of the Isle of Skye. Enigmatic installations will trace the massed pinnacles up to the iconic Old Man of Storr and the high cliffs above Coire Faion, culminating in the STORR 'starfield,' the largest light installation ever to be created in the UK.

An area of 30 square miles will be gradually brought to life as constellation after constellation comes to life on the headlands and islands looking back to the mainland. Triggered remotely as dusk settles over the island, 300 'point source' independent light systems with the lowest power consumption in existence will reflect starlight back to the heavens. Buy a 'starlight', a starlight cluster, or a constellation and help make this momentous work happen.
